

WA Showroom Experience

Congratulations on signing your contracts! Now that that's over with, you can start to focus on the finer details that, together, will make your dream home a reality.

We recommend visiting different supplier showrooms to get a feel for what you want. It often takes seeing something in person to get a true sense of what it will look and feel like in your home. This is certainly the case when it comes to texture (for obvious reasons) and colours, which can appear differently in person and under different kinds of lighting. There's nothing worse than wanting grey tiles and ending up with green ones instead.

When you visit the showrooms, we recommend bringing the following documents along:

- ▲ Contract Quotation
- ▲ Sales Specification
- ▲ Full Set of Plans

These documents will specify what is and isn't included in your build, so that you don't choose anything that won't fit within your plans or your budget.

European Ceramics

European Ceramics has an impressive showroom displaying the latest and finest European designed products, including premium furniture, cabinetry, floor tiles, benchtops, trim, and splashback options.

📍 36 King Edward Rd, Osborne Park WA 6017
